Aerotech Series ILC ventilators are adaptable to a wide range of exhaust and ventilation application. Each unit features quiet, dependable operation.

A typical rugged units with heavy gauge sheets and bracing with mild steel structure provide strength and rigidity for long service life. Ready access to the motor and sturdy motor base provides for quick and accurate belt adjustment and ease of maintenance.

All housings are equipped with inlet cones designed for smooth air flow into accompanying intake rim of the fan impeller. The matching pair of intake cone and wheel rim operate as a unit for best air flow.

ILC UNITS ARE WELL SUITED TO THE:

- **Kitchen exhaust**
- **Bath room exhaust**
- **Hospitals**
- **Apartment buildings**
- **Offices**
- **Light manufacturing**
